

EXTRA ADDENDUM

To certificates: 2107878 and 2124731

Heras B.V.

Hekdam 1
5688 JE Oirschot

This certificate is valid as from 13 May 2019. Recertification activities were executed before the expiry date of the previous certificate, which is 1 May 2019, on 22 February 2019.

Besides performing a recertification audit on site, the recertification process contains several formal steps before a certification decision can be taken. Due to this process, the issue date of the new certificate may be later than the expiry date of the previous certificate.

In the meantime, the certification cycle has been restored and the validity of the certificate is extended until 1 May 2022.
